

MEETING, COLLABORATION & COMMUNITY TABLES

EVENTI & EVENTI DUÉ™  
COLLECTION

MADE IN  
USA

# Adaptable. Transformational. Unique.

Designed by Roberto Danesi

Eventi Articulating tables effortlessly transform from solid tables, to wide-open presentation tables, to multimedia viewing platforms. One end of the table remains fixed, while the side extensions, or wings, glide outward into the extended position. The Eventi Articulating table offers the ultimate in flexibility to become a conference table, a presentation table and a board-room table all in one! Eventi 's exclusive segmented top design allows combinations of wood, metal, glass, and stone. The plateau is a secondary part of the edge detail, and because it is finished in colorcoat, adds an additional design element.

ELLIPSE / BOAT TABLE E/THH/14449
