

VERITY SLEEPER CONSTRUCTION –

- End frames are constructed of double 1" thick plywood panels
- ¾" plywood back frame is glued, screwed and stapled for torsional rigidity. Hardwood blocks provide additional reinforcement at key points
- Fully-welded frames with HD riveted 3/16 steel ottoman mechanism
- 8 and 11-gauge sinuous wire springs are clipped to the seat and back frame using a Rapid Clip system, and cross stabilized using wrapped wire
- Foam contains environmentally-friendly bio-based materials, and is California TB117-2013 compliant
- Tente 3" twin wheel casters. Housing and wheel hub are made of high-grade synthetic materials
