SUSTAINABILITY CERTS & INITIATIVES
    

design by GREY ID

Industrial design does not end in the talent of a single designer but encompasses the skills of young creative professionals working in the various disciplines of industrial planning: from concept to development, to provide support to the different stages of product engineering; they are dealing with the correct ways of communicating their projects both in terms of design and exhibitions. This is the perspective of GREY ID.

LOWEST PRICED MODEL: \$394
