

Mobile Screens

VERSTEEL

Mobile Screens epitomize flexibility. Ideal for multifunctional layouts, these adaptable screens can be easily moved to support division, privacy and/or safety. A selection of five base styles seamlessly coordinate with the Versteel collection. Each style offers two variations: Quad (four casters) for wider spaces and Tri (three casters) for a slim fit between adjacent tables. Screen choices include frosted acrylic, clear acrylic or powder coated metal (which is naturally magnetic).

SPECIFICATIONS

- Locking casters
- Acrylic panel thickness is 0.25"

DIMENSIONS

Width	42" and 48"
