The Art of MTS

Legendary architect Frank Lloyd Wright wrote, “Art is a discovery and development of elementary principles of nature into beautiful forms suitable for human use.” At MTS Seating, art means drawing on the knowledge and skill that comes with more than 60 years of experience in the hospitality industry to create the most beautiful, functional, affordable products we can. That’s what we call *The Art of MTS*.

The Art of MTS means looking at everything we do differently—from the products we design and build, to the relationships we maintain, to the way we treat the world around us. It means keeping quality and innovation as our goals, striving for continuous sustainability improvements and giving back to the people and communities we serve. By striving for excellence in all these areas, we can elevate our everyday work into something greater, something we think of as art.

Why MTS Folding Products?

Backed by BIFMA testing results and industry-leading warranties, MTS folding products come with a variety of options and are built to last—giving you peace of mind for years to come.

MTS Continuity Collection Folding Tables include plywood, linenless laminate, ABS, HDPE molded, and padded plywood. We also offer portable stages and accessories, storage and handling solutions, and buffet and cocktail style tables. All built and delivered on time and under budget.

MTS Continuity Collection Folding Tables come in many shapes and sizes to fit any application. Please refer to the individual pages for each product line to determine the specifications for your needs.

The MTS Advantage

MTS Continuity Collection 415 Series Linenless Laminate, 425 Series Heavy Duty Plywood, and 465 Series Padded Plywood Folding Tables feature a strong steel underframe with molded corners and stacking bumpers that protect tables from damage during setups, tear downs and general handling and also protect the table surface during storage. This superior understructure provides rigid support for the tables and helps extend the service life of the product.

415 SERIES LINENLESS LAMINATED PLYWOOD

A Thing of Beauty

These laminate-top, vinyl-edge folding tables are the chameleons of our folding table line. Six standard and nine premier laminate options allow customers to select the option that best fits their taste and décor. Additional custom laminates are also available through the MTS Custom Shoppe. And in this case beauty is more than skin deep. Our 415 Series tables feature a durable plywood core; a flat vinyl t-mold edge in black, brown, sand or gray; and strong and stylish 16-gauge arched steel legs. These 415 Series tables exceed BIFMA standards and offer a 5-year structural frame warranty.

Meeting Room style leg is available on all seminar tables. Providing freedom from table leg obstructions, these tables comfortably allow for three guests at a 72" table and four guests at a 96" table.

Leg braces incorporate spring-loaded, case-hardened steel for long life and fast set-up and tear-down. Legs lock in both the open and closed position.

One-inch diameter, 16-gauge steel legs are capped with high impact plastic glides held in place with a spring steel umbrella clip for superior holding power.

Unique arched 16-gauge leg design features double cross bracing for maximum support and structural integrity.

425 Series shown

Made with $\frac{3}{4}$ " plywood and reinforced against damage with a strong steel underframe with molded corners and stacking bumpers that protect tables from damage during setups, tear downs and general handling and also protect the table surface during storage.

The 415 Series features a 5-year Structural Warranty and, as with all MTS products, is designed, manufactured and tested to exceed all BIFMA standards.

The MTS Advantage

- Solid ¾" thick plywood is surfaced with high-pressure plastic laminate, sealed with a backing sheet and finished with a protective vinyl edge.
- Spring-bolt locking leg braces.
- High-impact plastic leg glides protect floors.
- Tops are reinforced against damage with a strong steel underframe with molded corners and stacking bumpers.
- 16-gauge steel leg construction stands up to heavy use without bending.

A Modern Marvel

These lightweight, premium-strength ABS folding tables feature an innovative design that utilizes high-performance, rigid engineered honeycomb core material to deliver maximum load capacity and impact resistance. The 445 Series tabletops and undersides have a durable outer shell made of high-strength thermoformed gray or beige ABS plastic, which completely encases all internal core and frame members. The 445 Series exceeds BIFMA standards and features a 15-year structural warranty.

Meeting Room style leg is available on all seminar tables. Providing freedom from table leg obstructions, these tables comfortably allow for three guests at a 72" table and four guests at a 96" table.

Leg braces incorporate spring-loaded, case-hardened steel for long life and fast set-up and tear-down. Legs lock in both the open and closed position.

One-inch diameter, 16-gauge steel legs are capped with high impact plastic glides held in place with a spring steel umbrella clip for superior holding power.

Unique arched 16-gauge leg design features double cross bracing for maximum support and structural integrity.

The 445 Series features a 15-Year Structural Warranty and, as with all MTS products, is designed, manufactured and tested to exceed all BIFMA standards.

425 SERIES HEAVY DUTY PLYWOOD

A Study in Versatility

These heavy-duty plywood top tables can handle pretty much anything you throw at them. They feature a durable Baltic birch plywood top sealed with a UV-cured topcoat to resist moisture penetration and a unique steel underframe with integrated stacking buttons developed to provide superior protection and storage capabilities. The 425 Series galvanized steel edge is mechanically attached and secured by screws to shield the table's core. The steel edge is superior to an aluminum edge which can loosen due to crimped attachment methods, and is softer and will burr easily, damaging linens. Our multipurpose 425 Series tables are always the right choice, whether they're filling a convention center, a trade show exhibition hall, or a hotel ballroom. The 425 Series is tested to exceed BIFMA requirements and features a 5-year structural frame warranty.

Features for 425 & 465 Series

Meeting Room style leg is available on all seminar tables. Providing freedom from table leg obstructions, these tables comfortably allow for three guests at a 72" table and four guests at a 96" table.

Leg braces incorporate spring-loaded, case-hardened steel for long life and fast set-up and tear-down. Legs lock in both the open and closed position.

One-inch diameter, 16-gauge steel legs are capped with high impact plastic glides held in place with a spring steel umbrella clip for superior holding power.

Unique arched 16-gauge leg design features double cross bracing for maximum support and structural integrity.

465 SERIES PADDED PLYWOOD

A New Standard in Strength

These heavy-duty padded plywood folding tables take toughness and durability to a new level. They are made from high-quality Baltic birch plywood with a clean, white vinyl padded surface. Featuring a sturdy steel underframe, our new 465 Series tables are ideal for both meeting and banquet applications with linens. Loaded with unique features, like a galvanized steel edge for protection during handling, an arched leg design for superior aesthetics, and a spring-loaded pin style leg brace locking mechanism, the 465 Series exceeds BIFMA standards and features a 5-year structural frame warranty.

Features for 425 & 465 Series

Galvanized steel edges allow round tables to be rolled directly on floors without creating sharp burrs that may damage table linens.

The table edges are protected with a mechanically attached galvanized steel edge, anchored securely with screws.

Made with 3/4" plywood and reinforced against damage with a strong steel underframe with molded corners and stacking bumpers that protect tables from damage during setups, tear downs and general handling and also protect the table surface during storage.

The 425 and 465 Series features a 5-year structural warranty and, as with all MTS products, is designed, manufactured and tested to exceed all BIFMA standards.

455 SERIES ULTRALIGHT HDPE MOLDED

A Lightweight Champion

These commercial grade, ultra-lightweight HDPE molded folding tables are designed to perform and built to last. Made with 100% virgin high-density polyethylene with added UV protection, the 455 Series features high-density support vaults that make the top durable and non-warping. The brown powdercoated legs come with a simple to use gravity lock mechanism. Tested to meet BIFMA requirements, they also feature slip-resistant bumpers for secure stacking and individual polypropylene clips to hold the legs in place when folded. The 455 Series comes with a 1-year structural frame warranty.

Leg braces feature an easy to use gravity lock mechanism that slides in and out of place for quick set ups and tear downs. Polypropylene clips hold legs in place during storage. High density support vaults make the 455 Series durable and non-warping.

Legs are capped with high impact protective black glides.

The 455 Series feature a 1-year structural warranty and, as with all MTS products, is designed, manufactured and tested to exceed all BIFMA standards.

MOBILE BAR & BUFFET UNITS

Cause for Celebration

Save time and increase flexibility with our mobile bar/buffet units. Available in laminate with black vinyl edge or stained plywood with galvanized steel edge, these tables may be fully prepared prior to the event and rolled to the desired location when needed. The detachable riser shelf may be used to add a second tier for buffet setups or to create a mobile bar. MTS Mobile Table Units allow fast conversion between various functions in your multipurpose facility. One person can easily open, fold and transport even our largest models. These units feature automatic safety locks in both the open and closed positions to ensure safe use and operation.

Leg braces incorporate spring-loaded, case-hardened steel for long life and fast set-up and tear-down. Legs lock in both the open and closed position.

Mobile Bars and Mobile Utility Tables feature 4" rubberized wheels with roller bearing axle for easy maneuverability. Lock tabs keep tables securely in place.

Mobile units fold flat for easy, compact storage.

The Mobile Bar and Buffet Units feature a 3-Year Structural Warranty and, as with all MTS products, are designed, manufactured and tested to exceed all BIFMA standards.

TRI-HEIGHT COCKTAIL & X-FOLD™ TABLES

Tri-Height Cocktail Tables

X-Fold™

With our Tri-Height Cocktail Tables, you always have the right table to meet any customer's needs. Whether it's a standing or seated function, you'll always have the right table for the event, even if there needs to be a change minutes before the event starts.

X-Fold™ tubular steel folding tables contact the floor at four points for maximum stability during use. After an event, they are easy to clean with ABS plastic surface tops and return to folded position for vertical storage. Tables are available in 30" and 42" heights.

Combining the 30" and 42" height positions with our unique 36" position, Tri-Height Cocktail and X-Fold™ tables offer unlimited tiered display possibilities. Optional skirting is available in burgundy, navy, jade or black.

TABLE CADDIES

Always Ready to Roll

MTS Heavy Duty Table Caddies are designed to roll long distances comfortably on concrete, tile, or carpeted floors. Heavy Duty caddies feature 6" diameter, 1 5/8" wide, polyurethane wheels, roller-bearing axle, swivel plate casters mounted to a heavy-gauge, welded, steel frame. Crossbeams are carpeted and side rails are covered with neoprene rubber to protect tables.

MTS Standard Duty Table Caddies are designed for use on smooth floors. Standard caddies feature 4" diameter, 1 1/4" wide, hard rubber wheels, swivel stem casters mounted to a heavy gauge welded steel frame. Side rails are covered with neoprene rubber to protect tables. Both series are available for all MTS folding table styles.

Capacity 10-12 24"-36"x96" tables or 20-24 18"x96" tables

Moving Performers

One person can roll MTS Mobile Stages easily from storage to the event location. Opening the stage deck automatically lifts casters from the floor to prevent movement when the stage is in use. Integral drop-in couplings allow stages to be joined together, and stages safely support a uniform load of more than 200 pounds per square foot. From compact storage to event location, mobile stages save set-up time and increase facility flexibility.

Optional Velcro® backed fire-retardant box-pleat skirting is available in burgundy, navy, jade or black.

Optional guard rails are available in 30", 36" or 48" lengths. All rails are 30" high from the stage floor.

Optional portable steps are available for all MTS Mobile stages. Chose from one-, two-, three- or four-step models. Two-, three- and four-step models are equipped with wheels for easy handling.

Safety tested and listed by Underwriters Laboratories, MTS Mobile Stages are safe for use by your staff and guests.

Mobile Stages feature a 10-Year Structural Warranty and, as with all MTS products, are designed, manufactured and tested to exceed all BIFMA standards.

TransFold® Sets the Stage

MTS TransFold® portable stages provide you the freedom to create any performance environment you can imagine. With our convenient 4'x4' module and unique arc shaped sections, you design the stage you need, when you need it. Stage set-up is easy and can be accomplished with one person. Integral wheels on 16" and taller stage units facilitate unloading from the storage caddie and moving into position without any heavy lifting. Once in place, wheels automatically lift from the floor and each unit rests safely on non-marring glides. Built-in height adjustment from 8" to 40" (see individual unit specifications) provide endless possibilities. Steps, guardrails and clip-on skirting complete the stage for a safe and professional presentation.

Optional Velcro® backed fire-retardant, box-pleat skirting is available in burgundy, navy, jade or black.

Optional portable steps are available for all MTS Mobile Stages. Chose from 1, 2, 3 or 4 step models. 2, 3 and 4 step models are equipped with wheels for easy handling.

Table edges are protected with 18-gauge formed steel angles, anchored securely with screws.

Skirting is attached to any stage or riser with skirting clips – one provided for each foot of skirting ordered.

Optional storage and transport caddies make set-up and tear-down faster and safer. Stores and transports up to eight platforms up to 72" long or six platforms 96" long.

All TransFold® Stages feature built-in stage couplings – no need for awkward lifting or crawling under stages. Couplings lock into place and fold out of the way for storage.

Optional guard rails are available in 30", 36" or 48" lengths. All rails are 42" high from the stage floor.

Dual height units feature telescoping leg inserts secured by steel clevis pins with spring-loaded détonés. Tightening the leg-lock knob eliminates wobble.

TransFold® Portable Stages feature a 15-Year Structural Warranty and, as with all MTS products, are designed, manufactured and tested to exceed all BIFMA standards.

To see the entire line of MTS hospitality products, visit www.mtsseating.com.

MTS Seating is sensitive to the impact of our manufacturing on the world around us. That's why we developed and adopted the SynerGreen® philosophy to make continuous environmental improvements in our processes and products, while practicing sound business principles to focus on satisfying customer needs. In addition, MTS is proud to be the first hospitality banquet seating manufacturer to earn the GREENGUARD® Indoor Air Quality Certification on our line of stacking, banquet and restaurant seating, and in 2014, MTS received Sustainability Leader status with the MindClick Global Hospitality Sustainability Index.

Visit our website at mtsseating.com to find out more about our SynerGreen program and for the big picture in turnkey solutions for every seating setting.

Discover performance engineering, ergonomics today's hospitality industry demands, and the design impact to make a lasting statement – whimsical to romantic, retro to regal.
